

# Course Review 2024 Engineering Design 2

Response to feedback for newly accredited courses first delivered in 2022 and 2023.

Following Phase 1 reviews in 2023, and in collaboration with TASC, DECYP implemented a range of significant amendments across the suite of new courses, including [Engineering Design Level 2](#).

The 2024 [Phase 2 Review](#) identified additional or outstanding opportunities for improvement, with a particular focus on assessment.

Senior Secondary Provision and TASC developed a matrix to assess the scale and risk of identified issues. Courses were divided in three categories:

- High priority amendments
- Moderate priority amendments
- Lower priority amendments

Subject Matter Experts met to validate and provide feedback on the proposed solutions to identified issues (the amendments).

## What we heard

The following table represents background data related to the course review:

- Number of providers offering the course in 2024
- Total number of feedback responses received
- Percentage represented by the number of feedback responses out of the total number of providers offering the course

	Providers offering the course in 2024	Feedback responses	Percentage of providers represented by feedback responses
Numbers	12	2	17%

## Summary of identified issues and recommended solutions:

The following table represents:

- data extracted from the review surveys, identifying issues within this course
- recommendations submitted through the review surveys or recommendations

IDENTIFIED ISSUES	RECOMMENDED SOLUTIONS
Criteria order is out of alignment with ED3 – specifically, C6 and C7 need to be switched over to better align with ED3.	Review and edit ED3 and then ensure that both ED2 and ED3 are aligned

## Course amendments:

The following amendment/s have been made to the course:

- Learning outcomes and associated assessment Criteria numbered 6 and 7 swapped.
- Changes made throughout course document to reflect this amendment, in standards, content and work requirements sections.

## Clarifications:

The following clarification/s have been provided:

- Nil.

## Recommendations:

Some feedback received was outside of the scope of this phase of the course review process. As a result, the following recommendations have been made for future consideration:

- Nil.
