

AGRICULTURAL ENTERPRISE Level 2

Common Assessment Task

Work Requirements:

Practical experience with a plant or animal production system.

Learners complete two out of the three work requirements for this Unit. One work requirement per sub-unit as detailed in the course content.

Assessment Type:

Report – Extended response

Criteria being assessed:

- Criterion 1 - element 2
- Criterion 3 - element 7
- Criterion 5 - element 3

Suggested conditions:

- This task follows a practical experience with a plant or animal production system.
- This task should take learners 1.5 hours total.
- Maximum of 750 words.
- This task requires an individual response by each learner.

Task Description:

You will submit an individual report about the plant or animal production system you have been involved with. The report can be about your experiences in production which can be as an individual or as part of a group. The report should consider:

- information and data gathered
- alternative methods of production
- how you applied practical skills
- how you worked safely and cooperatively
- any factors that support best farming practices.

What you need to do:

You need to write a report (maximum 750 words) about the plant or animal production system being studied through practical experience.

Your report should include:

1. An introduction.
2. Identification of factors that support optimal farming practices.
3. Documentation of procedures undertaken.
4. Information and data gathered during practical experience.
5. Appraisal of the procedures undertaken to achieve optimal production and suggested alternative methods of production.
6. A conclusion.

Teacher use only - What needs to be submitted for assessment?

Report 750 words maximum.
