

AGRICULTURAL SYSTEMS Level 3

Common Assessment Task

Work Requirements:

Formative (not directly related to a work requirement) - modified example learning activity from the Teaching and Learning Supplement.

Assessment Type:

Multimodal response

Criteria being assessed:

- Criterion 9 - elements 2 and 9

Suggested conditions:

- This task should take learners no more than 2.5 hours.
- Access to voice recording technology i.e. a mobile phone.
- Optional - a partner for production (interview - host/guest).
- Maximum 6 minute recording.
- This task requires an individual response by each learner.

Task Description:

You are to produce a podcast explaining the impact of climate variability on agricultural production including the impact of La Niña and El Niño.

What you need to do:

Use class notes, articles and the internet to research the implications of climate variability on agricultural production including the impact of La Niña and El Niño.

You will need to summarise your research capturing the key points for your target audience (including peers, general public and farmers).

Your podcast should include:

- An introduction tag or title
- And introductory monologue. Who you are and what you will be talking about (maximum one minute)
- Show content (maximum 3 minutes)
- Closing remarks (maximum 2 minutes)
- Optional: host/guest
- Optional: music

Teacher use only - What needs to be submitted for assessment?

Produce a podcast. A graphic organiser for planning may be used.
