Certificate III in Live Production and Services

A selection process should be undertaken before enrolment to determine if the student has the required industry knowledge, skills and experience to undertake the qualification. Delivery and assessment should be undertaken by an industry qualified trainer/assessor to ensure students are trained in current industry practices and standards.

RESPONSE FROM LIVE PRODUCTION AND SERVICES INDUSTRY FOCUS GROUP

Industry value opportunities for representation in the selection processes and invitations to deliver information sessions. It is a small industry in Tasmania and these opportunities to develop connections help directly link students to employment.

Preferred skills for school leavers entering the sector:

- The industry has moved production to automatic services and there is a downsizing of human resourcing. However, live streaming is emerging and skills in this area may be beneficial to emerging occupations.
- Skills development via work placement are highly valued. Work placement often leads to future employment.
- A portfolio of work is likely to be required for entry into tertiary qualifications post school.

Preferred pathways for school leavers entering the sector:

- School leavers can be employed as operational staff which can be a great start to a career in the industry.
- Traineeships may also be available in the operational roles such as sound and camera.
- Tertiary pathways exist in screen, journalism and writing as future career pathways.

The sector supports the completion of Certificate III Live Production and Services in school/college for the following reasons:

- This qualification provides an opportunity for a select group of interested students to be exposed to opportunities and connections to build experience in the industry.
