

# MUSIC TECHNOLOGY PROJECTS - FOUNDATION Level 2

## Common Assessment Task

### Work requirement:

Working with other people

### Assessment Type:

Short response

### Criteria being assessed:

- Criterion 4 - elements 1, 2, 3, and 4

### Suggested conditions:

- This task should take learners 2-2.5 hours.
- The task requires an individual response by each learner.

---

### Task Description:

Learners will reflect on an occasion when they had to provide technical support to meet requirements of clients, musicians and/or production personnel.

### What you need to do:

Write or record a reflective response to the following questions:

1. List the topics you needed to discuss with your client and why they needed to be discussed.
2. How did you communicate with your client?
3. Give one example when you observed and effectively enforced WHS protocols.
4. Give one example when you used appropriate professional behaviour (such as stage etiquette).
5. How did you appropriately care for any equipment/technology involved?
6. What tools and strategies did you use to keep yourself organised (such as use of calendars, voice memos, schedules, note taking, or apps)?
7. What did you learn about yourself that you consider a strength and what is one area that perhaps could be improved in the future?

#### Teacher use only - What needs to be submitted for assessment?

Learners digitally submit a written reflective response (300 words maximum) or an audio or video recording (two minutes maximum) that focuses on their skills of working with others when providing technical support.
