Sample 1 - What rating (or ratings) has the group assigned this sample?

C+

Sample 1 - What evidence supports the rating (or ratings) the group has given?

Element 1 - B-
 Element 2 - C
 Element 3 - B-
 Element 4 - C
 Element 5 - C+
 Element 6 - C

Sample 1 - What evidence would you need to see in order to assign a higher rating (or ratings)?

Increased analysis and justification overall at each stage of the research process and better connection with recommendations to the evidence.

Sample 1 - Summary of group consensus with comments to element level if applicable.

Element 1 - there was a sense of suitable methodologies having been selected and used, although these were not sophisticated methodologies nor named up with the correct research methodology vocabulary

Element 2 - the student identified some problems and acknowledged these but there was limited development

Element 3 - student did select research methodologies that were suitable but these were not analysed

Element 4 - There was limited analysis to justify a higher rating in the B range but evidence of the other aspects of this element

Element 5 - Lots of opportunities missed with social media opportunities not

investigated, documentaries, current funding packages from organisations such as cricket Australia etc. and numbers of girls in sport on the rise.

Element 6 - lack of analysis in general positions this sample in the C range.

Sample 1 - What actions would you recommend for teachers to help the student attain a higher rating (or ratings)?

Further evidence is needed to demonstrate analysis of research methodologies and analysis and evaluation of sources and resources.

Moderation Details for Calibration - Sample 2

Sample 2 - Please identify each criterion being moderated and IF SELECTED the elements within that criterion

Criterion 3 = Overall

Sample 2 - What rating (or ratings) has the group assigned this sample?

B overall

Sample 2 - What evidence supports the rating (or ratings) the group has given?

Due to issues with the Zoom connection and this dropping out there was very limited discussion for this sample and no specific discussion of individual elements however there was a general consensus it was in the B range.
